

1 Response Paper – Appendix Three: Profiles for Strategic Aggregate Recycling Sites (Proposed to be deleted from future MLP)

Purpose of Appendix Three

- 1.1 This Appendix contains a list of each of the strategic aggregate recycling sites subject to Policy S5.

Summary of Position Prior to March 2021 Regulation 18 (Reg 18) Consultation

- The proposed revisions to Policy S5, all recycling facilities permitted by the MPA and subsequently set out in the AMR and Policy Map are to be safeguarded. Therefore, this Appendix was proposed to be removed from the MLP and publish this information through the AMR and Policy Map which can be more regularly updated than the MLP.

Impact of Revisions to NPPF 2021

- 1.2 None of the amendments made to the NPPF in July 2021 had an effect on Appendix Three.

Addressing Issues Arising Out of March 2021 Reg 18 Consultation

- 1.3 Through the consultation no comments were received which resulted in any further proposed amendments to Appendix Three and the supporting text.
