RESISTANCE WORKS

AND WE'RE JUST GETTING STARTED.

just.stopoil Resistance works, and we're just getting started.

The fascists are coming. The super rich are bleeding us dry. We face 2 degrees of global heating and billions of deaths.

The currently political and economic system is broken, and no one is going to come to fix it unless we do it for ourselves.

We are building a revolution.

A Just Stop Oil spokesperson said:

“Just Stop Oil’s initial demand to end new oil and gas is now government policy, making us one of the most successful civil resistance campaigns in recent history. We know that resistance works and it’s needed now more than ever, so we’re just getting started.

“The fascists are coming. The super rich are bleeding us dry. We face 2°C of global heating in the 2030s and billions of deaths within decades. nothing short of a revolution is going to stop this.

“The current political and economic system is broken and no one is coming to fix it unless we do it for ourselves.

“So we are building a revolution in the UK’s broken political and economic system by taking back power from the rich and putting ordinary people in charge. Sign up to take part in the House of the People at houseofthepeople.uk.

“We are also building a new street movement rooted in local communities and dedicated to nonviolent civil resistance on a scale that Just Stop Oil never even dreamt of. Help put people on the streets by funding the next phase of civil resistance at juststopoil.org/donate.”

On March 27th Just Stop Oil announced it was ‘hanging up the hi vis’ and that today’s action would be the last. However, Just Stop Oil supporters will continue to tell the truth in court, to speak out for our political prisoners, and to help build what comes next.
